Introduction

Welcome to the *Liber Fanatica - Volume 1: The Character Compendium*. Like its companion volume, *The Perilous Arts*, it is a document that supports Warhammer Fantasy Roleplay, second edition.

The focus of this volume is on the character, more in specific the PC. The articles in here offer ways to give more depth to generating and playing a character, adding character background and motivation to the figures and data already generated by the rules in the rulebook, and discussing how motivations and careers give more depth to the character and thus enrich the game.

Considering that many WFRP2 players have wide experience in, and materials for, the old version, this volume also offers a conversion guide for WFRP1 characters and converted careers from the first edition rulebook.
